

## Bridge Program Study Plan

The following table illustrates the study plans for students who are placed into English A and who are seeking to enroll in an English medium university level program after completing the Foundation Bridge Program.

Science/English Oriented HE Program			
Semester 1		Semester 2	
1.	English B	1.	Math II
2.	Arabic Communication	2.	General Study Skills
3.	IT	3.	General Science
Non-Science/English Oriented HE Program			
Semester 1		Semester 2	
1.	English B	1.	Math I
2.	Arabic Communication	2.	General Study Skills
3.	IT	3.	General Science

The main difference between the two study plans is that students who intend to seek an undergraduate degree in a science field will normally be placed out of the general science course and the Mathematics I course.

Students seeking a degree in Arabic medium will follow the study plan illustrated below:

Arabic Oriented HE Program			
Semester 1		Semester 2	
1.	English A	1.	Math I
2.	Arabic Communication	2.	General Study Skills
3.	IT	3.	General Science

*Note: Arabic medium programs must follow the non-science program path.*

The Arabic medium program requires students to take the English A course, which teaches students the basics of the English Language.
